AN/PSC-14						
1042653		AN/PSC-14 Basic Kit Including RT-1929(C), Antenna Assembly, Control Indicator Assembly and: 1. Control Indicator Interface Cable – 6 ft. 2. Crypto Ignition Key (CIK) 3. Antenna Interface Cable – 16 ft. 4. MRC-89 Battery Box (no batteries) 5. Antenna Mini-Tripod/Pole Mount 6. Dbl Shielded RJ-45, Cat 5E Ethernet cables 7. Console cable 8. CD-ROM including: IT Operation and Maintenance Manual; Inmarsat Launchpad Application SW; FTP SW for IT field SW upgrades 9. Quick Start Guide (hard copy) ViaSat's AN/PSC-14 Broadband Global Area Network (BGAN) Integrated Terminal (IT) embeds a KG-250 family (several versions already certified) HAIPE type 1 inline network encryptor (INE) and an Inmarsat core module into a rugged enclosure designed for military utility. The PSC-14 supports BGAN class 3 (land mobile) service advantaged by higher (class 1) antenna gain. The PSC-14 INE is a 10Mbps Full Duplex throughput HAIPIIS compliant encryptor. The INE Foreign Interoperability (FI) release can be configured as Suite A, Suite B or Suite A/B. Multi Security Level support with up to three levels of INE nesting, FIREFLY/PPK, Multi-Universal Key and EKMS compatible. No additional management software required.
